

Manual for demo mode

In demo mode, some functions are only available for viewing.

The screenshot shows the top navigation bar of the demo mode interface. On the left, there is a logo consisting of a white hash symbol (#) inside a dashed square, followed by the text ".INSTANCE". On the right, there is a language selector dropdown showing "en" with a downward arrow, and a red "Exit" button. Below the navigation bar, there is a horizontal menu with five items: "Ratings list" (highlighted with a red box and a blue underline), "Sections list", "Panel control", "User profile", and "Settings". Below the menu, the main content area displays the title "Ratings list - Page 1" in bold. Under the title, there is a blue button with a plus sign and the text "Create a new rating". Below the button is a table with the following data:

#	Name	Hidden	Date of first publication	Cache creation date
1	Best Ukrainian companies in their category Made in Ukraine		28.05.2023 20:53:47	28.05.2023 21:05:46

You can make changes in the "Ratings list" and "Sections list" sections, as well as change the language.

Please note that the website and the admin area may have different language sets. Texts entered by the user will be displayed in the default language for the website i.e. in English.

Creating your rating

#1. Go to the "Ratings list" page and click the "Create a new rating" button.

After clicking the "Create" button, the process of creating a screenshot will start, it can take from a few seconds to a minute. During this time, you can continue to add sites.

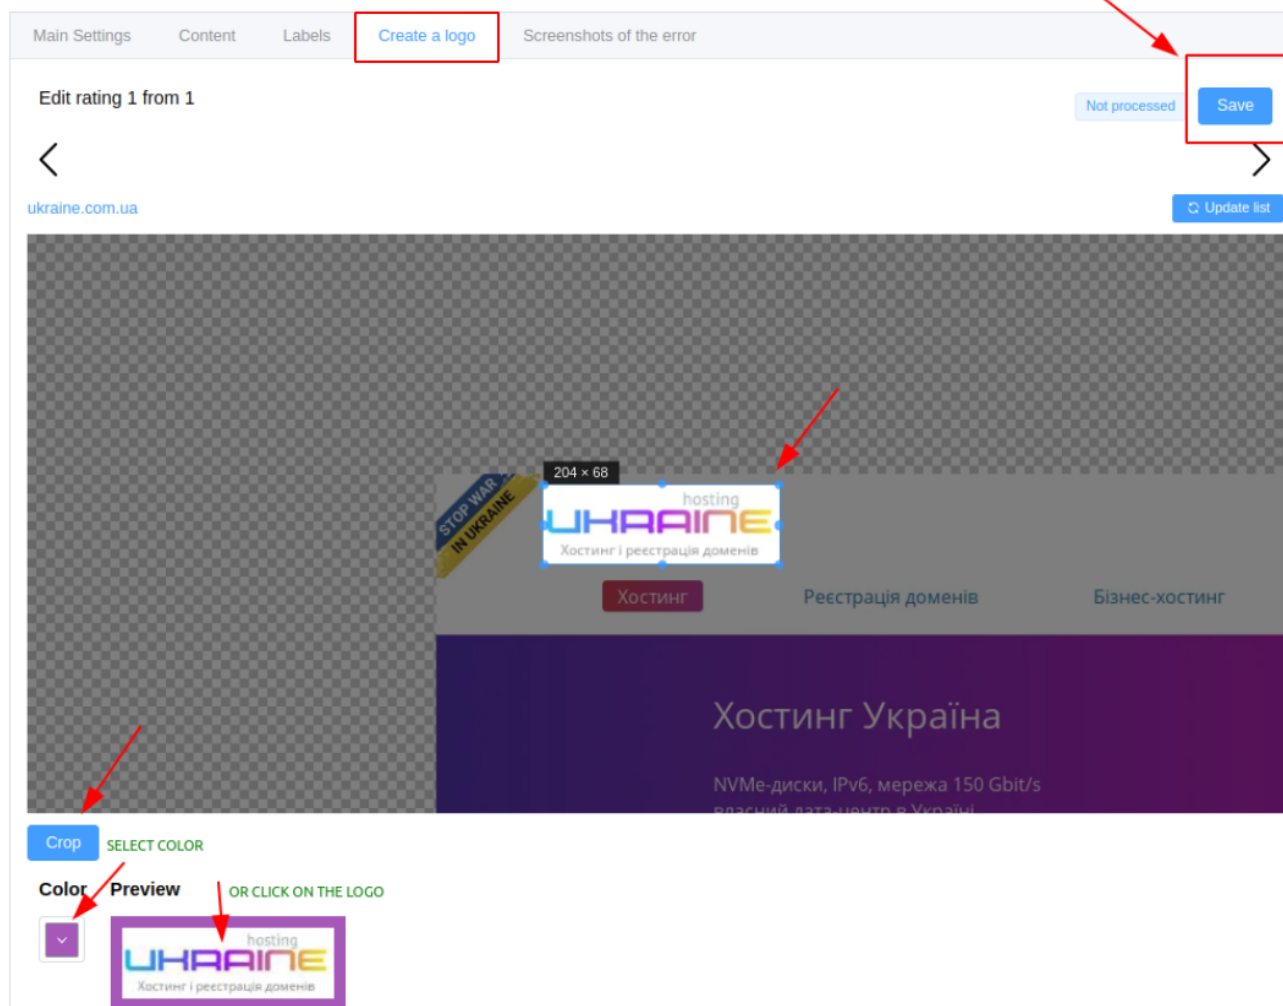

Notes:

- If a logo already exists for the domain, it will be immediately added to the site
- Screenshots are not automatically generated for subdomains. To create, you need to click the button in the site interface (this will not be described here)
- For some sites, screenshots cannot be created. In this case, the screenshot must be uploaded manually.

#5. Go to the "Create a logo" tab, cut the logo from the screenshot by clicking the "Crop" button. To choose a color, "click" the resulting image with the mouse **or** select a color from the "color palette". After that, the "Save" button will become active, click it.

#8. To add a shortcut to a website, go to the "Content" tab and click the "Edit" button (you could also add a shortcut while adding a website)

Edit rating: "My new rating (en)"

Go to ratings list: 1

The screenshot shows a web application interface with a top navigation bar containing the following tabs: "Main Settings", "Content" (highlighted with a red box), "Labels", "Create a logo", and "Screenshots of the error". In the top right corner of the main area, there is a blue "Add" button. The main content area displays a list of ratings. The first rating entry is for the website "ukraine.com.ua" with a rating of "135819" and a date of "2001-02-01". Below the date, there is a blue "Edit" button, which is highlighted with a red box and a red arrow pointing to it. Above the website name is a purple square icon with a white hashtag symbol.

#9. Select a label from the list and click the "Save" button

The screenshot shows a web application interface with a top navigation bar containing links: "Sections list", "Panel control", "User profile", and "Settings". A modal window titled "Add a Section" is open, featuring a close button (X) in the top right corner. The form contains the following elements:

- Name:** A group of three text input fields for different languages. The "ru" field is highlighted with a red border. A red arrow points from the "Description" section to the "ru" field.
- Description:** A group of three text input fields for different languages.
- Priority:** A numeric input field with a value of 0 and minus/plus buttons.
- Hide:** A checkbox labeled "Hide" which is checked. It is highlighted with a red border, and a red arrow points to it from the left.
- Create:** A blue button at the bottom right, highlighted with a red border. A red arrow points to it from the top left.
